- I can count objects 1 by 1.
- I can tell you how many objects there are without recounting them first.
- I can use my fingers or objects to add.

- I can count up to 20 objects accurately.
- I can count out a number of objects to match any number you give me between 1 and 20.
- I can use objects to add.

- I can count up to 20 objects accurately.
- I can count out a number of objects to match any number you give me between 1 and 20.
- I can use objects to add.

- I can count the number of objects in 2 different categories
- I can compare the number of objects in each group, and tell you which group has more and which group has less.

- I can count forward from a number other than 1.
- I can use objects to add.

$$3 + 4 = 7$$

Computational Fluency • Addition & Subtraction Facts  
CCSS Content Strand: Operations  
& Algebraic Thinking

- I can use fingers or objects to show and solve addition and subtraction problems within 10.
- I can pull numbers less than 10 apart into different pairs.
- I am learning my addition and subtraction facts to 5.
