

• I can name, describe, and compare 2-D shapes, including triangles, rectangles, hexagons, and trapezoids.
 • I can put shapes together to make pictures, designs, and other shapes.

Grade 1 Work Place 5A Last Shape in Wins
 CCSS Content Strand: Geometry
 © Math Learning Center

• I can name, describe, and compare 2-D shapes, including triangles, rectangles, hexagons, and trapezoids.
 • I can put shapes together to make pictures, designs, and other shapes.

Grade 1 Work Place 5B Pattern Block Puzzles

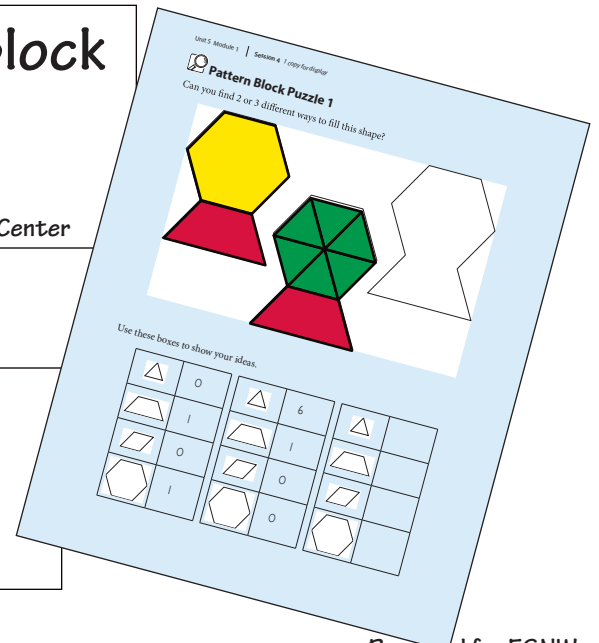

CCSS Content Strand: Geometry
© Math Learning Center

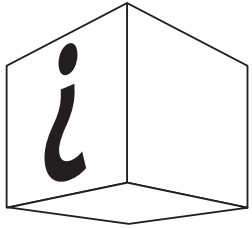

- I can name, describe, and compare 2-D shapes, including triangles, rhombuses, hexagons, and trapezoids.
- I can put shapes together to make pictures, designs, and other shapes.

Grade 1 Work Place 5B Pattern Block Puzzles

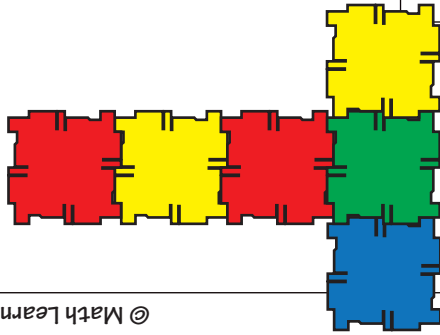

CCSS Content Strand: Geometry
© Math Learning Center

- I can name, describe, and compare 2-D shapes, including triangles, rhombuses, hexagons, and trapezoids.
- I can put shapes together to make pictures, designs, and other shapes.

- I can identify and name 3-D shapes, including cubes.
- I can predict which nets will fold to make cubes.

Grade 1 Work Place 5C Cube Predictions

CCSS Content Strand: Geometry

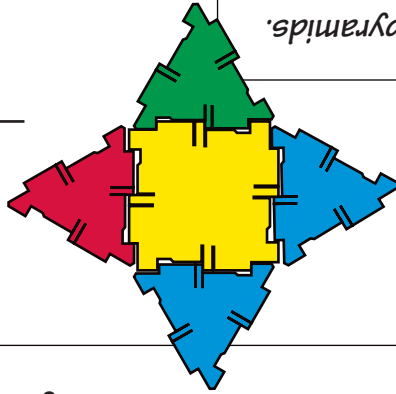

Grade 1 Work Place 5C Cube Predictions

CCSS Content Strand: Geometry

© Math Learning Center

- I can identify and name 3-D shapes, including cubes.
- I can predict which nets will fold to make cubes.

- I can identify and name 3-D shapes, including pyramids.
- I can predict which nets will fold to make pyramids.

Grade 1 Work Place 5D Pyramid Predictions

CCSS Content Strand: Geometry

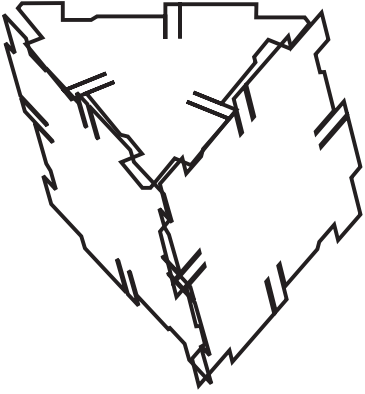

Grade 1 Work Place 5D Pyramid Predictions

CCSS Content Strand: Geometry

© Math Learning Center

- I can identify and name 3-D shapes, including pyramids.
- I can predict which nets will fold to make pyramids.

- I can identify and name 3-D shapes, including triangular prisms.
- I can predict which nets will fold to make triangular prisms.

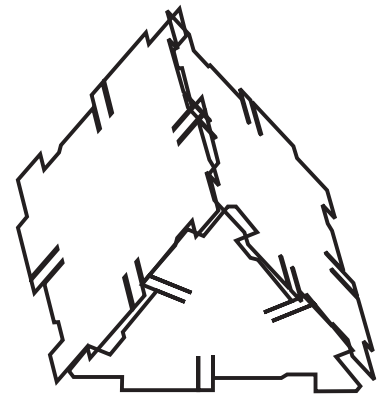

Grade 1 Work Place 5E Triangular Prism Predictions

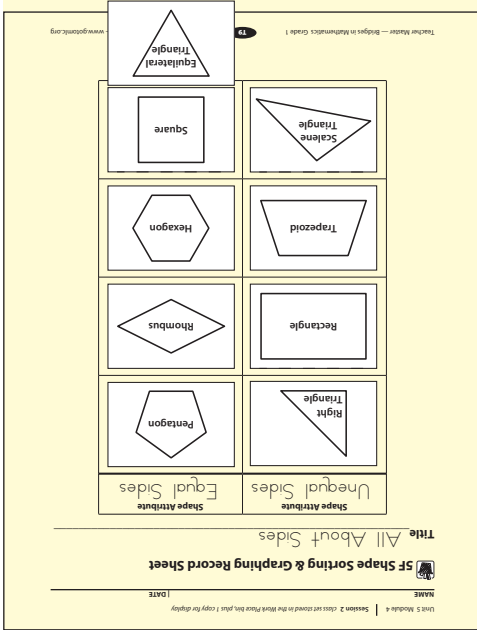

CCSS Content Strand: Geometry

Grade 1 Work Place 5E Triangular Prism Predictions

CCSS Content Strand: Geometry

- I can identify and name 3-D shapes, including triangular prisms.
- I can predict which nets will fold to make triangular prisms.

• I can make a graph and tell you about it.
 • I can name, describe, and compare 2-D shapes, including triangles, rectangles, hexagons, squares, rhombuses, circles, and trapezoids.

Grade 1 Work Place 5F Shape
 Sorting & Graphing
 CCSS Content Strand: Measurement & Data
